INFORMATION LETTER 206-08-97

TO: All Owners/Operators of Bell 206B and TH67 Helicopters

SUBJECT: SOLENOID DRAIN VALVE 206-360-503-103, KIT

This information letter is issued to advise that there is a kit available for solenoid drain valve and float switch P/N 206-360-503-103. The purpose of this kit is to correct fuel leakage observed after operation of the drain valve by replacing internal spring.

The Kit, P/N 199-0080-01 is applicable to Bell Helicopter P/N 206-360-503-103 Revision B units produced after August, 1994. Units Identified by Revision C have the intent of this upgrade accomplished. Maintenance instructions on how to carry out upgrade will be supplied with the kit.
