INFORMATION LETTER 412-04-55 Rev. A
412CF-04-16 Rev. A

TO: All Bell Helicopter Owners/Operators of Bell 412 EP and 412CF Helicopters

SUBJECT: BLR FAST FIN AND STRAKE INSTALLATION ON ALL BELL 412EP and 412CF HELICOPTERS

This information letter supersedes I.L.412-04-55 and I.L. 412CF-04-16. Bell Helicopter has recently completed flight testing of the BLR Fast Fin and Strake kit. The Strake and the Fast Fin as a combination are endorsed and approved for use on the Model 412EP and the 412CF helicopters. An amendment to include 412, 412SP, 412HP is currently in work. Installation of the Strake only configuration has not been evaluated and therefore cannot be endorsed by Bell.

Bell Helicopter will continue to offer structural repair advice and repairs free of charge to operators who comply with all related bulletins from BLR in relation to the installation of the hard mounted Strake Kit or the Floating Fastener Strake Kit. For information on related Bulletins please contact the STC holder at:
